

COVID Testing Information

The Onondaga County Health Department has mandated that all student-athletes participating in a high-risk sport undergo WEEKLY (once every 7 days) SARS-CoV-2 testing, unless the individual has documentation of a positive test within the previous 90 days.

As a result, the East Syracuse Minoa Central School District, in coordination with the Department of Health, is offering free testing for all student-athletes participating in high-risk sports. The schedule for the season is below.

Please Note: There will not be a pre-registration process (NO LINK). Any student-athlete currently rostered in a high-risk sport is eligible for testing on any of the dates below.

**Individual accommodations (in extenuating circumstances) may potentially be granted in coordination with our district Athletic Trainer(s).

High School
